

ECONOMICAL CONTRACTORS

DESCRIPTION

ECONOMICAL CONTRACTORS PAINT is a high opacity economical contractors paint for application to new cement plaster and ceilings with subsequent PVA finishes.

USES

ECONOMICAL CONTRACTORS PAINT is suitable for cement plaster, gypsum plaster, concrete, fibre cement, ceiling boards and wooden surfaces provided that appropriate preparation is carried out.

ADVANTAGES

- Excellent adhesion and elasticity
- Colour fast and UV resistant
- Fungal retardant
- Non-flammable and fire retardant
- Exceptional scrubbing endurance
- Easy application and fast drying
- Breathable allowing moisture to escape
- Available in satin sheen, ultra matt, gloss and textured finishes

APPLICATION

It can adhere easily to any surface and is highly elastic. It is heat and fungi resistant and does not give out any odor or toxic secretion on V.O.C application.

TECHNICAL PROPERTIES

Colour	Available in a variety of colours
UV resistance	Excellent
Chemical resistance	Excellent
Water resistance	Excellent
Hardening resistance	Excellent
Drying time	30min (touch dry) 24 hours (full cure)
Spreading rate	8-10 m ² /L

CLEANUP

Use Water to clean all the equipment thoroughly after using it.

STORAGE

Store the sealed containers at moderate temperatures.
